

3 SPECIAL OFFERS

Corning® Cell Counter and Accessories – Scale up your cell counting efficiency and throughput right from the start

For purchases September 1, 2024 through December 20, 2024

OFFER 1

Purchase a Corning Cell Counter for 20% discount

Cat. No.	Description	Qty/pce
CNE6749-1ea	Corning Cell Counter	1

OR

OFFER 2

Purchase a Corning Cell Counter and an accessory for 30% discount

Cat. No.	Description	Qty/pce
CNE6749-1ea	Corning Cell Counter	1
And one accessory		
CNE6749-OC-1ea	Organoid Counting Software for the Corning Cell Counter	1
CNE480202-1ea	Disposable Counting Chamber for Corning Cell Counter, 0.1 mm	50

OR

OFFER 3

Purchase a complete Corning Cell Counter set for 30% discount

Cat. No.	Description	Qty/pce
CNE6749-1ea	Corning Cell Counter	1
CNE6749-OC-1ea	Organoid Counting Software for the Corning Cell Counter	1
CNE480202-1ea	Disposable Counting Chamber for Corning Cell Counter, 0.1 mm	50

Corning Cell Counter

The Corning Cell Counter is the first cell counter that combines the best features of automated and manual cell counting. It is fast, accurate, and affordable.

- Evolving – Periodic, seamless upgrades, added features, and improved functionality.
- Accurate – Thanks to its cloud-based machine learning algorithm.
- Low-cost – Works with common reusable glass hemocytometers. No consumables required.

Corning Counting Chamber

Disposable counting chambers are composed of two 10 µL chambers. Designed to optimize throughput by enhancing speed and data accuracy in mammalian cell counting.

Organoid Counting Software for the Corning Cell Counter

This software extension enables Corning Cell Counter operators to capture rapid data of 3D cell cultures based on the structure's morphology.

For purchases September 1, 2024 through December 20, 2024

Terms and Conditions: Offer valid from 01.09.2024 until 20.12.2024
Prices are net, excluding VAT.
This promotion can't be combined with any other ongoing discounts or offer
